PROFILE

Engineering student in Cybersecurity & Cloud Computing (ESPRIM), combining strong technical skills with leadership, cross-functional project experience and an entrepreneurial mindset. Led teams, built production-grade software systems, and delivered projects from concept to deployment. Bilingual in French and English with a genuine interest in international business, technology strategy and operational excellence.

EDUCATION

- **ESPRIM Monastir** — Engineering Degree, Cybersecurity & Cloud Computing (2024 – present) — GPA: 3.05/4.0
- **ISIMa Mahdia** — Bachelor's Degree, Software Engineering (2021 – 2024) — Graduated with Highest Honours
- **Lycée Tahar Sfar, Mahdia** — Baccalauréat in Mathematics (2021 – 2022)

EXPERIENCE

Engineering Intern — Full Stack Developer

Jul 2026 – Sep 2026

[Polymaille \(Textile Industry\)](#), [Ksar Hellal](#), [Tunisia](#)

- Built from scratch a modular ERP system (Spring Boot Modulith) covering Production, Purchasing, Stock, Sales and Security — conceived, planned, developed and deployed independently with one teammate.
- Implemented REST API architecture with OAuth2/JWT authentication and Keycloak IAM, ensuring role-based access control across all modules.
- Containerized the full stack with Docker Compose (Keycloak, MySQL, Redis), set up caching strategies and wrote integration tests with Testcontainers.

Full Stack / Backend / Mobile Developer

Mar 2024 – Aug 2025

[Alfa Computers](#), [Mahdia](#), [Tunisia](#) (3 internships)

- Led a team of 3 to deliver a real-time mobile application (React Native) connected to IoT sensors — coordinated sprints, delegated tasks and presented demos.
- Delivered a complete e-commerce platform (React, Node.js, MongoDB) with Docker containerization and CI/CD pipeline.
- Developed backend APIs for a trading platform using Python/FastAPI with JWT, OAuth2 and Swagger documentation.

PROJECTS

Secure Banking Infrastructure (2026)

Scored 18/20 — Nominated at ESPRIT Projects Ball

- Designed and deployed a full network security architecture: Cisco switches, pfSense firewall, VLAN segmentation, DMZ, TCP/IP routing.
- Built a complete SOC environment on GNS3/OpenStack: Wazuh (intrusion detection), Grafana + Prometheus (real-time monitoring), Loki (log centralization).
- Delivered a microservices banking application with observability, CI/CD and KYC module (JWT/RBAC).

Hermes Suite — E-commerce Platform (2024 – present)

Graduated with Highest Honours

- Built a full e-commerce platform (React, Node.js, MongoDB) with catalogue, cart, checkout, invoicing — currently transforming into a SaaS multi-tenant solution.

SKILLS

Technical: Python, Java, JavaScript/TypeScript, React, Node.js, Spring Boot, FastAPI, ASP.NET Core, Docker, Kubernetes, CI/CD, MySQL, PostgreSQL, MongoDB

Leadership & Strategy: Team management, sprint planning, stakeholder communication, requirements analysis, project scoping

Languages: Arabic (native), French (bilingual), English (bilingual), German (basic)

ACTIVITIES & INTERESTS

Hunters Club — Active member of a competitive team that hunts down CTFs, hackathons and tech competitions across Tunisia and online. Co-organised workshops (e.g. n8n workflow automation).

DevTalents — Participated in technical workshops focused on software development and emerging technologies.

Cybersphere Congress 7.0 — Attended one of Tunisia's largest cybersecurity congresses, engaging with industry professionals and exploring current trends.

Chess — Regular player, developed strategic thinking and analytical problem-solving skills.

Gym — Committed to fitness and discipline, maintaining a consistent training routine.

CERTIFICATIONS

Certified Red Team (CRTOM) | Certified Phishing Prevention Specialist (CPPS) | Cybersecurity Career Starter (CCSC) | Building AI Agents (DeepLearning.AI) | n8n Workflow Automation
