

# Mohamed Ben Naima

Intern Software Developer — Java · Object-Oriented Design · IP Networks

Tunisia | +216 25 577 542 | Medbennaima2021@gmail.com | linkedin.com/in/mohamed-ben-naima | github.com/Mohamed-Ben-Naima | Portfolio: mohamed-ben-naima.netlify.app | English (bilingual) · French (bilingual)

## PROFILE

Software engineering student (graduating June 2027) applying for the Java internship, with solid **Java and object-oriented programming** skills and genuine depth in **IP networking** — TCP/IP, VLAN segmentation, DNS/DHCP, Cisco switching, pfSense firewalls and GNS3 simulation (CCNA 200-301 in progress). Currently building a **Spring Boot (Java) industrial ERP** as an intern: REST APIs, OOP design, SQL and OAuth2/RBAC. Comfortable scripting in Python, using Git daily, and shipping via CI/CD pipelines. Available part-time (24+ hours/week) for at least one year, with two office days per week in Kraków.

## TECHNICAL SKILLS

- Java & OOP:** Java 8+, Spring Boot, REST APIs, SOLID principles, design patterns, clean code
- IP Networking:** TCP/IP, subnets & VLAN segmentation, DNS/DHCP, Cisco switching, pfSense, Wireshark, GNS3 (CCNA 200-301 in progress)
- Scripting & Tooling:** Python (FastAPI, scripting), Git, GitLab CI/CD, GitHub Actions, Postman, Jira
- Data:** SQL, MySQL, PostgreSQL, MongoDB, data modeling
- Backend:** Spring Boot, FastAPI, Node.js/Express, OpenAPI/Swagger
- Infrastructure:** Docker, Kubernetes, AWS, OpenStack, Linux, Windows Server
- Observability:** Grafana, Prometheus, Loki, Wazuh

## WORK EXPERIENCE

- Software Engineering Intern — Full-Stack, Polymaille (Textile Industry)** Jul – Sep 2026 (present)
  - Building a full-cycle industrial ERP in Java (Spring Boot Modulith)** — own the Stock & Sales modules end-to-end: domain model, event flows, REST APIs, applying object-oriented design.
  - Implementing REST APIs and SQL** (MySQL, Aiven), OAuth2/JWT + RBAC (Keycloak), Redis caching, OpenAPI/Swagger and PDF invoicing; Angular frontend; deployment in progress on a Windows Server we configured.
  - Working in a 2-person team** alongside the Purchasing & Production owner; documenting every module with the business lead before delivery.
- Backend / Full-Stack Developer, Alfa Computers** Mar 2024 – Aug 2025
  - Built a trading-platform backend in Python (FastAPI)** — authenticated REST endpoints (JWT + OAuth2, OpenAPI/Swagger, Postman test suites).
  - Delivered a MERN e-commerce** solo (React, Node.js, MongoDB) — Dockerized and deployed via GitLab CI/CD to Render.
  - Led a 3-person team** shipping a smart-home app streaming live Arduino sensor data (React Native + Node.js/Express).

## PROJECTS

- Secured Banking Infrastructure** (2026) — Java · Spring Boot · Angular · Keycloak · SQL · Kafka · IP networks · GNS3 · OpenStack
  - Java (Spring Boot) microservices banking app** — one database per service, Keycloak/RBAC, Kafka async eventing, deployed on an OpenStack private cloud inside GNS3.
  - Designed the IP network layer:** Cisco core switch, dual pfSense firewalls, edge router, VLAN segmentation, DNS/DHCP — with observability (Grafana, Prometheus, Loki, Wazuh). **Nominated, ESPRIT Projects Ball.**
- Windows Server & Network Services Lab** (2026) — Active Directory · Kerberos · DNS · DHCP · FTP
  - Configured Windows Server roles — DNS, DHCP, FTP — with Kerberos authentication and granular file permissions.

## EDUCATION

- ESPRIM Monastir** — Engineering Degree, Cybersecurity & Cloud Computing (2024 – 2027) · top of class · graduating June 2027
- ISiMa Mahdia** — BSc, Software Engineering (2021 – 2024) · with highest honours

## CERTIFICATIONS

Cisco CCNA 200-301 (in progress) | CLLMSP & CRTOM (Red Team Leaders) | Building AI Agents (DeepLearning.AI)

## LANGUAGES

Arabic — native | French — bilingual | English — bilingual | German — basic

## LEADERSHIP

- Co-founded **Hunters Club** (20+ members) — competitive CTFs across Tunisia; 2nd & 4th place, Polytech Sousse CTF.
- Led the Cyber & Cloud committee at **DevTalents** (30+ members) — organized an LPIC-1 preparation session.

**Availability:** part-time (24+ hours/week) for at least one year; available to work two days per week at Motorola Solutions' Kraków office (Czerwone Maki 82).
